

**SCANDINAVIAN**  
ENERGY GROUP

Total supplier within pipes, industrial  
assembly, electrical, service, and  
rental of equipment and personnel

# SCANDINAVIAN ENERGY GROUP

In a time of increasing focus on the environment, new and better solutions and reduced energy consumption, we have established the Scandinavian Energy Group.

The company is a strong and competent partner in heating, cooling, ventilation and all types of pipe systems.

Our goal is to assist our customers in their efforts to find good and sustainable solutions, where the focus on profitability and reduced operating costs is prominent.

### Expertise and experience

We have specialist expertise and extensive experience in steam and heating technology, cooling, heat exchange, welding and industrial pipe work. Our expertise is your best tool for realizing projects of any scale and complexity.

### Solutions that make a difference

Our focus is to ensure that you, as our customer, can concentrate on your core business, and at the same time benefit from the most cost-effective systems, services and products, regardless of your company's industry and size.

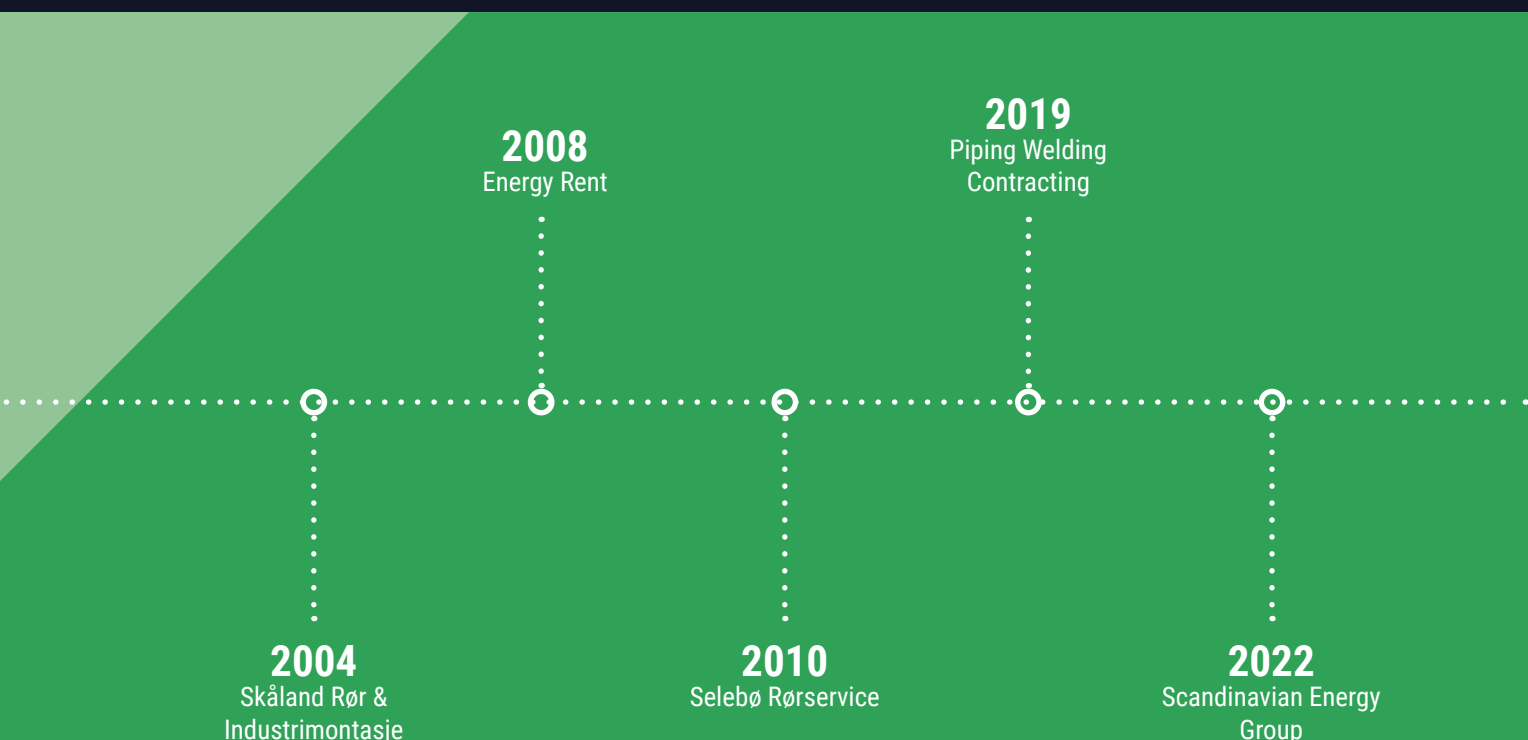

### Committed to sustainability

Scandinavian Energy Group has considerable expertise and experience as a supplier of equipment and solutions for energy economic measures and sustainable solutions.

Environmental awareness is an integral part of our corporate philosophy.

We are committed to promoting energy efficiency, environmental protection and social responsibility.

With Scandinavian Energy Group, you can be sure that we are working for a more sustainable future.
