WE ALWAYS SEE POSSIBILITIES

ECL Prosjekt AS is a leading supplier of complete shopfitter solutions.

We are an efficient and hard-working organisation that builds and develops shops, using our more than 30 years of combined industry experience.

Our network of partners ranges from our own factory, craftspeople and technology suppliers to construction and shop installation experts.

Through our expertise, experience and commitment we always put the customer first, delivering high-quality service at every stage.

A SUSTAINABLE APPROACH

We protect the environment as much as is technically possible and work continuously to minimise waste. When furnishing a shop, we always choose materials and products that will ensure a good working environment and minimal wear and tear.

We recycle at least 80% of all project waste.

We also refurbish and reuse furnishings and materials whenever possible, cutting costs for our clients in the process.

OUR VALUES

- CURIOSITY
- EXPERTISE
- JOY IN WORK

ECL PROSJEKT'S GOAL:

To build shops fit for the future throughout Europe

ECL PROSJEKT – YOUR SHOP MAKER

WE VALUE CURIOSITY

To us, curiosity means being open to new possibilities. Curiosity leads to innovation, positive change and increased expertise. Working with us is fun because we make things happen.

TAILOR-MADE IN OUR OWN FACTORY

Based in Tibro, Sweden, Nordic Interior Production AB manufactures and supplies all our wood-based shopfitting.

Our factory is a traditional specialist joinery using the latest production and machine technology, as well as being a certified Corian supplier.

The team offers high levels of expertise in function and design, construction, material utilisation and production of projects both large and small.

The factory is FSC-certified, ensuring an environmentally friendly approach to forests.

Our ownership of and collaboration with Nordic Interior Production enables ECL Projekt to offer our customers complete interior design solutions, storage for chain store, fast and efficient delivery and tailor-made adaptations for individual shops.

Our factory in Sweden can produce and deliver both large and small projects.

OUR CUSTOMERS

Some of our interior solutions are tailor-made for a specific shop or environment, while others are system-based. With many years of shop fitting experience, our skilled project managers will help you find the best solutions for your project.

WE ARE PROFESSIONALS IN EVERY ASPECTS

We define expertise as combining our knowledge, skills and perspectives to the benefit of every project. We are professionals, at every stage.
